

WHAT IS CLAIMED IS:

1. A blasting device, comprising:

- a) a blasting medium supply unit;
- b) a blasting gun; and
- c) an extension provided on the blasting gun, the extension including a sufficiently clear portion so that a user may view a surface being blasted, in use.

2. A blasting device as in Claim 1, wherein:

- a) the portion of the extension includes a substantially clear pipe.

3. A blasting device as in Claim 2, wherein:

- a) the substantially clear plastic pipe is colorless.

4. A blasting device, comprising:

- a) a blasting medium supply unit; and
- b) the blasting medium supply unit including at least two(2) blasting medium supply tanks.

5. A blasting device as in Claim 4, wherein:

- a) a switching valve is provided for switching between the at least two(2) blasting tanks, for alternately supplying blasting medium from each of the two(2) supply tanks.

6. A blasting device as in Claim 4, wherein:

a) a recovery hose is provided for recovering blasting medium, in use; and

b) a switching valve is provided for directing recovered blasting medium to alternate one of the at least two(2) lasting medium supply cylinders.

7. A blasting device as in Claim 6, wherein:

a) A blasting gun is connected to the blasting medium supply unit.

8. A blasting device as in Claim 7, wherein:

a) A portion of the blasting gun is sufficiently clear so that a user may view a substrate being blasted, in use.

9. A blasting device as in Claim 8, wherein:

a) the portion of the extension includes a substantially clear pipe.

10. A blasting device as in Claim 9, wherein:

a) the substantially clear plastic pipe is colorless.
